

Polio Awareness Month – October 2011

“Awareness is empowering.”

- Rita Wilson

Hello All,

October is Polio Awareness month. We wanted to remind everyone to get out there and let people know that “we are still here” and that Polio is just as relevant today as it once was. We will be sending out information packages with materials that can be shared with the community (local libraries, your local member of parliament etc...) and also with your doctors. Please look for information to come,

Warm Regards,

The Peer Support Team
